01 NEW CROSSING OF BERLIN-MITTE AND KREUZBERG

Embedded in one of the most colorful districts of Berlin and surrounded by a life-affirming culture which is characterized by tolerance and creativity, coe48 offers an inspiring place to work and live in Berlin-Mitte.

In collaboration with the world-renowned architectural firm Tchoban Voss, the new office and apartment building is being created. Directly on the corner of Köpenicker Strasse 48 and Wilhelmine-Gemberg-Weg and via the Michaelis- or Schillingbrücke directly connected to the business center Mediaspree on the opposite side of the Spree.

02 LOTS OF LIGHT FROM THE BASEMENT TO THE ROOF

A special feature of the new office and apartment building coe48 is the green roof terrace. The garden design will include different seating and lounging areas, giving the roof a true park atmosphere.

For the ground floor, with approx. 3.82 m high ceilings particularly generously laid out, a café, a lobby lounge, and additional work and conference rooms are planned. A staircase leads from here to the lower ground floor with a ceiling height of 3 meters.

There is an additional 170 m² space which has high glass windows to the courtyard, bringing in plenty of light. Here, a lounge, conference rooms and an area for changing and showering is planned for office staff who might commute by bicycle.

02 A GREEN CONCEPT

coe48 has its own courtyard garden, with green spaces and flower beds that can serve as a quiet oasis or a communal meeting place for office and residential tenants.

The building concept is based on sustainable principles. Energy-efficient systems such as smart control of heating, air and lighting, as well as digital monitoring for tenants, will be used. An international LEED certification is being sought for the building.

03 DOOR KEYS INSTEAD OF DOORMAN

Whoever decides to live on Köpenicker Strasse – whether to work or to live – will be immersed in a part of Berlin that could not be more authentic: Tolerance, openness and respect are unwritten laws of the neighborhood. In the spirit of these values, as well as the historical spelling “Cöpenicker Straße”, the coe48 project marks the beginning of another chapter in this legendary neighborhood.

The street is characterized by a unique mixture of independent art and club culture, restaurants and industrial architecture. It is home to agencies and creative industries that have an unshakeable pull on new Berliners and new thinkers, who value the deliberately unfinished nature of this neighborhood as an inspiration.

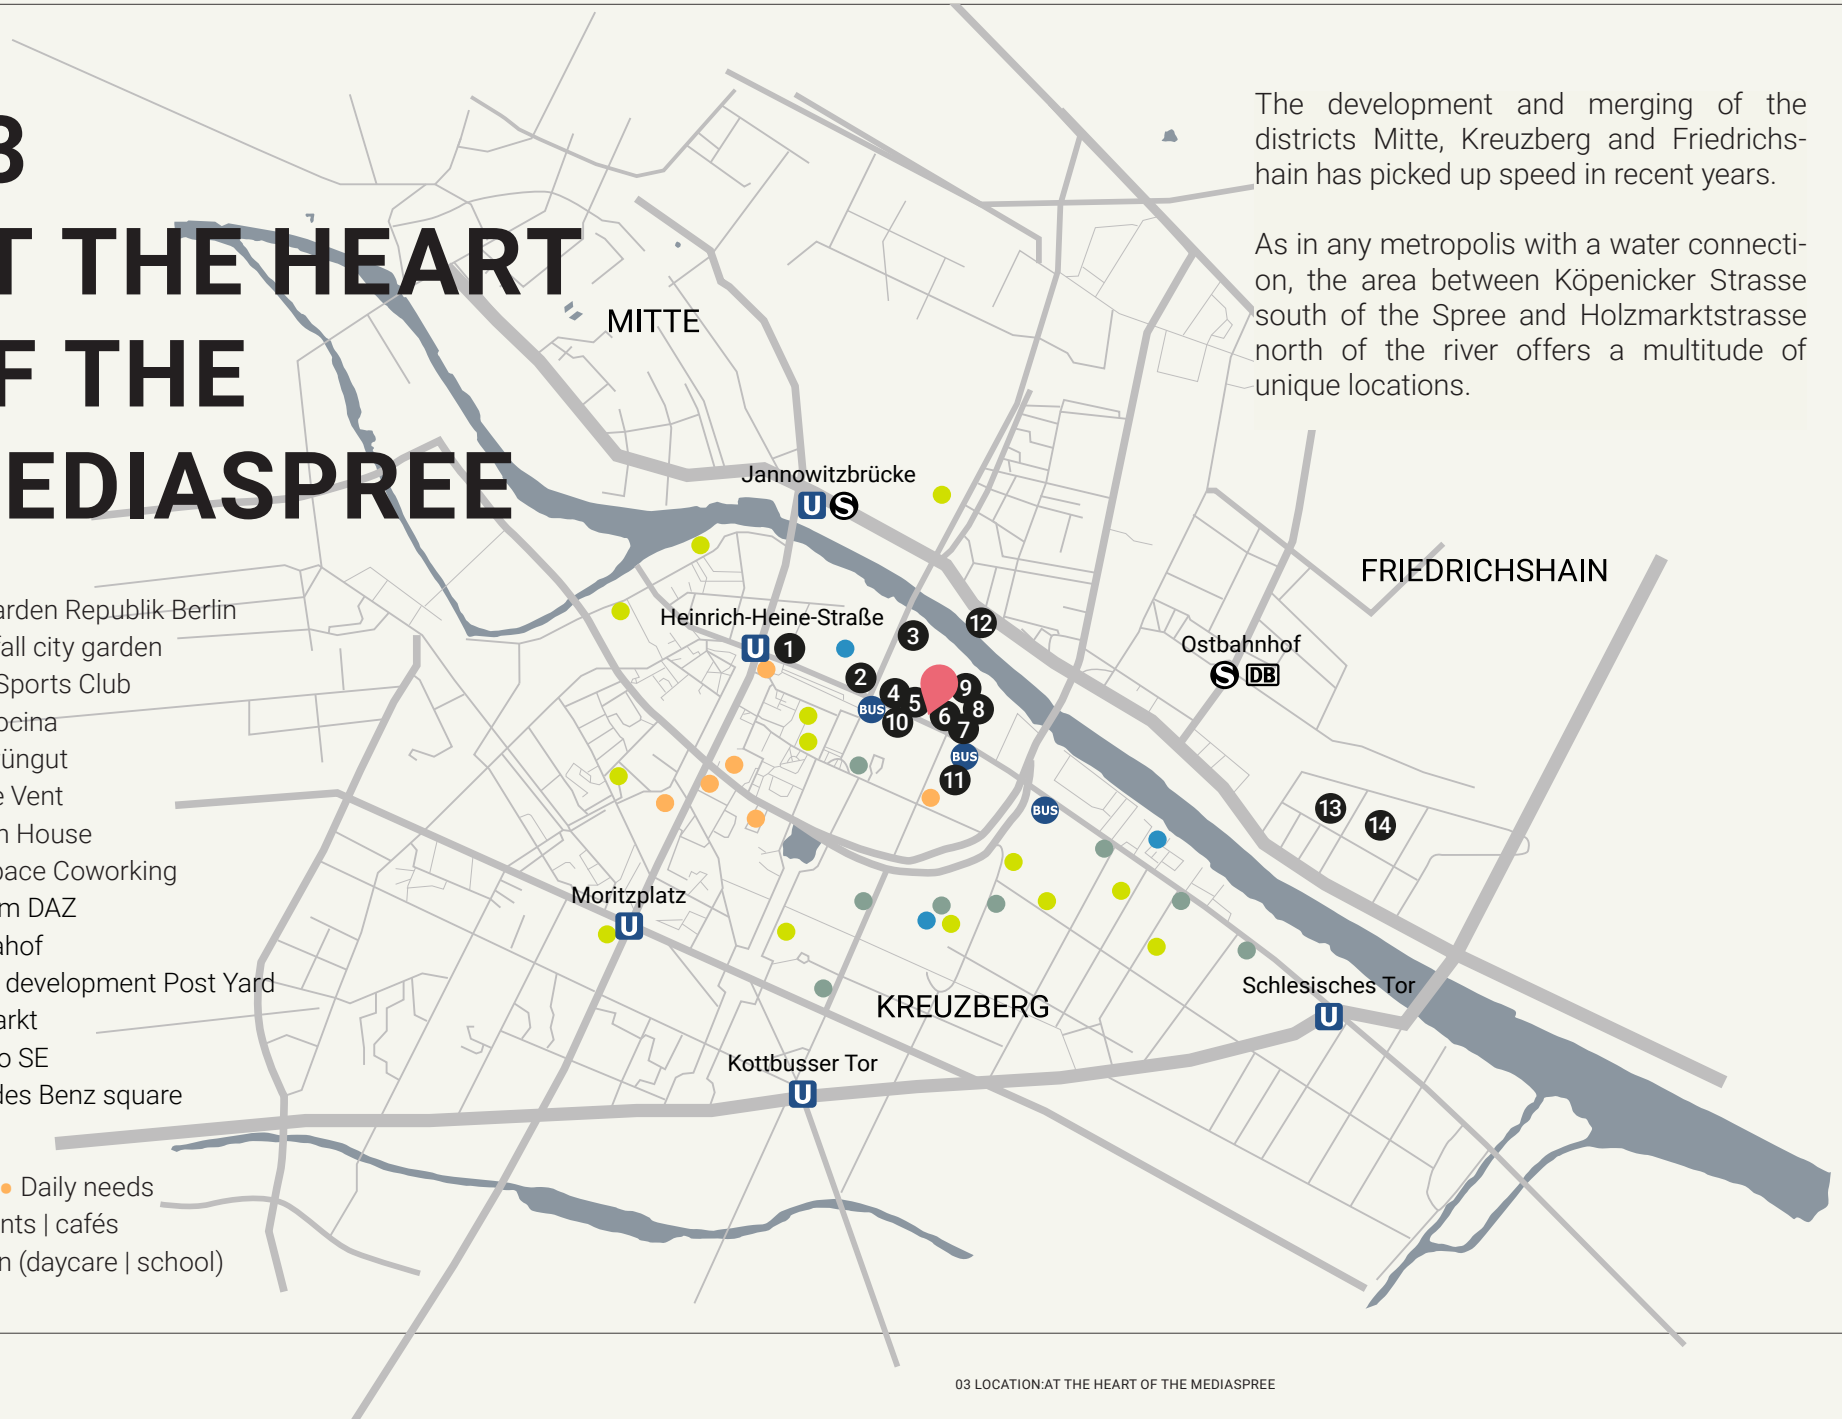

03 AT THE HEART OF THE MEDIASPREE

The development and merging of the districts Mitte, Kreuzberg and Friedrichshain has picked up speed in recent years.

As in any metropolis with a water connection, the area between Köpenicker Strasse south of the Spree and Holzmarktstrasse north of the river offers a multitude of unique locations.

PROJECT

04 NEW ROOMS FOR NEW THOUGHTS

The office coe48 offers a new era of working environment for people who need a living and work space, but do not want to separate quality of work and life. The project is therefore ideal for companies looking for a new, lively Berlin office location with plenty of light and room to breathe.

All floors feature bay windows or terraces, as well as floor-to-ceiling windows. There is a total area of approx. 3,000 m² with ceilings up to 3.80 meters high.

And for all those who want the shortest commute in Berlin, the apartment building right next door will offer a total of 19 contemporary rental apartments with modern floor plans, bathrooms and fitted kitchens with great attention to detail.

05 FIRST THE WORK, ROOF TOP AFTER

Six floors are planned for the new building in the office section and a seventh floor in the residential building. With its permeable facade of architectural concrete and glass, the building blends into the neighborhood and gives the corner of Köpenicker Strasse and Wilhelmine-Gemberg-Weg an urban significance.

The sustainable building concept offers plenty of light, inspiration and flexibility for successful working. Open floor plans are just as possible as classic offices – depending on the needs of the people in this location.

This adaptability is the perfect framework for a variety of New Work solutions, all of which are designed to create the best possible atmosphere for a wide range of work.

05 SMART TECHNIQUES FOR BRIGHT MINDS

All technical infrastructure of the office space corresponds to modern standards. This includes optical fiber connection and sustainable cooling and heating of the building via concrete core activation with an automatic control system.

The building also includes a private roof top terrace with garden and seating areas, which can be used for work, meetings or relaxing.

Completion is scheduled for early 2024. For future tenants, the lease is commission-free.

TROCKLAND

Established in 2009 in Berlin, Trockland Management GmbH aims to contribute to urban development by creating spaces with a high quality of life. The owner-managed company realizes large-scale new construction projects as well as conversion and reconstruction of residential and commercial properties. The portfolio includes 22 assets – realized and in planning phase – among them assets such as Pier61|64 at the East Side Gallery and Eiswerk in Berlin-Mitte. An international team of 65 professionals strives to create sustainable value while respecting social and ethical values, as well as to provide letting and management services for the portfolio properties.

TROCKLAND DISCLAIMER

This information does not purport to comprise a full description of the property for any kind of investment nor to include all information that could be of interest to potential investors for such a decision. This information does not replace the need for the recipient to examine the potential investment of the property. Neither does it represent an offer to invest in the property. Neither this document nor the information contained in this document may be used as a basis for contracts, obligations or similar.

No express or implied guarantees or undertakings are given for the correctness, completeness and up-to-datedness of the information, figures, assessments and projections in this document or in any other written or verbal information provided to the recipient. Trockland Management GmbH (including all Trockland companies owning real estate property) its managing directors, officers and employees do not accept any liability in this respect.

This information must be treated confidentially and must not at any time be copied, reproduced or forwarded to other parties (as a whole or in parts) without the prior written consent of Trockland Management GmbH. Neither Trockland Management GmbH nor the Trockland company owning the property shall be obliged to grant the recipient access to any further information, to update the information presented in this document or to correct information that proves to be incorrect during the course of the lease process.

Layouts, plans, views and features are based on information and data that may vary in the different planning stages. Visualizations are artistic illustrations that do not necessarily reflect the actual future setting. Potential investors are recommended to compile and evaluate their own information with regard to the properties and the investment which is the content of this presentation.

It is recommended that every potential investor who is interested in purchasing or valuing the investment and the properties should appoint their own financial advisors or other professional consultants.
